Euro-Mediterranean and Middle East Summer School for Science Communication

A Training Program for Science Center Leaders

Euro-Mediterranean and Middle East countries share the same history and today face the same issues concerning the development of the region. There is a need to reinforce a stronger partnership with people and to support institution-building, with the aim of delivering sustainable and inclusive growth and job creation.

The EMME Summer School aims to build the capacities of professionals working in the field of science communication in the Euro-Mediterranean and Middle East regions.

What?

- Strategic planning
- Exhibition development
- New approaches to science learning
- Formats for science learning and creativity
- Communication and fundraising

Who?

- New science centers/museum managers
- Middle profile science centers/museum staff
- Promoters for new science centers/museum projects

Where?

- Bibliotheca Alexandrina, Alexandria, Egypt

When?

- 5-10 September 2015

How?

The EMME Summer School addresses future leaders in the field by providing them with professional skills and expertise for the development and management of sustainable projects.

The training program includes the following:

- Lectures and theoretical content
- Practical workshops
- Case studies
- Visits

Speakers and facilitators, mostly practitioners from partner organisations, will give participants hands-on workshops as well as sessions; hence, transmitting to participants concrete skills and knowledge based on practical expertise. The School is open to all members of the NAMES and Ecsite networks; priority being given to members located in the Middle East, North Africa, and/or in Europe.

Promoting partners:

- European Network of Science Centers and Museums (Ecsite)
- North Africa and Middle East Science centers network (NAMES)

Active partners from the Ecsite network:

- Fondazione IDIS – Città della Scienza, Naples, Italy
- Universcience, France
- Universcience Partenaires, France
- Museo delle Scienze, Trento, Italy
- Parque de las Ciencias, Granada, Spain
- Ciencia Viva, Portugal

Active partners from the NAMES network:

- The Scientific Center of Kuwait, Kuwait;
- Planetarium Science Center, Bibliotheca Alexandrina, Alexandria, Egypt.

* **Universcience Partenaires, France, will be supporting 5 participants.**
